About me

MERN stack developer with hands-on experience building scalable web applications and RESTful APIs. Completed a 3-month software development internship at Sheryians Pvt. Ltd, where I worked with Node.js, Express.js, and MongoDB. Developed multiple full-stack projects, including an e-commerce platform with payment integration and an AI-powered chatbot. Seeking opportunities to contribute to innovative web development projects.

Technical Skills

- **Languages** : JavaScript (ES6+)
- **Frontend** : React.js, Next.js, HTML5, CSS3, Tailwind CSS
- **Backend** : Node.js, Express.js
- **Database** : MongoDB, Mongoose
- **Tools** : Git, GitHub, Postman, Vercel

Education

B.E. in Artificial Intelligence & Data Science | Final Year

MCT Rajiv Gandhi Institute of Technology, Mumbai

Projects

Personal Planner Web App | HTML, CSS, JavaScript | [Live Preview](#)

- Built a responsive productivity app with a to-do list, Pomodoro timer (25/5 cycle with audio alert), and a goal planner that sorts goals by priority.
- Implemented persistent task storage using browser cookies, so data stays after the browser is closed, with no backend needed.
- Designed a neumorphic UI that works across mobile, tablet, and desktop, with smooth task animations and a refreshable motivational quote section.

Browser OS | React | [Live Preview](#)

- Built an interactive macOS-style portfolio with React and Vite, featuring draggable windows, a dock, and a command-driven terminal.
- Integrated a PDF resume viewer, a syntax-highlighted profile, project cards and an embedded Spotify player into one desktop-like UI.
